

ASEAN Waterproof Spectrometer for Sale

Overview

Spectrometer for Sale Discover portable spectrometers for sale with CE certification, 380-780nm wavelength range, and applications in lighting, industrial.

Key Takeaways

Waterproof spectrometers in ASEAN can be sourced through authorized regional distributors and direct sales contacts of leading spectrometer brands.

Regional Distributors and Representatives

Malaysia: EastWest SVC Pte Ltd is a key distributor for brands like Ocean Optics, InfraTEC Inc, and NAC Image Technology. They provide sales, technical support, and consultation for scientific instrumentation, including spectrometers suitable for demanding applications. Thailand: Sithiphorn Associates Co., Ltd. has decades of experience in distributing scientific instruments and can provide guidance on specialized spectrometer models.

Other ASEA

N Countries: PT. Putranata Adi Mandiri serves as a representative in the Asia-Pacific region, offering access to various spectrometer brands and OEM solutions. Global Brands: Companies like Ibsen Photonics maintain a network of distributors worldwide, including Asia, and can provide quotations for OEM spectrometers with specific requirements such as waterproofing.

Purchasing Considerations

Waterproofing: When requesting a spectrometer, specify environmental protection requirements (e.g., IP67 or IP68 rating) to ensure suitability for wet or outdoor conditions. **Spectrometer Type:** Depending on your application, you may choose between array spectrometers, FTIR, or echelle spectrometers, each with different resolution, wavelength range, and sensitivity characteristics. **Technical Support:** Ensure the distributor provides installation, calibration, and after-sales service, which is critical for high-precision instruments.

Quotation Requests: Contact the distributor directly with your specifications to obtain pricing and availability. Many distributors can customize spectrometers for waterproof or ruggedized applications.

How to Proceed

Identify the brand or type of spectrometer you need. Contact the regional distributor (e.g., EastWest SVC in Malaysia or Sithiphorn in Thailand) and specify that you require a waterproof or ruggedized model. Request a quotation and inquire about lead times, warranty, and technical support.

Confirm compatibility with your intended application, such as outdoor measurements, chemical analysis, or industrial monitoring. By working with these authorized distributors, you can access direct sales channels for waterproof spectrometers in ASEAN, ensuring both product quality and reliable support.
