

Belarusian manufacturers of domestically produced optical cables for smart buildings

Overview

Minsk Cable Plant Minskkabel Joint Limited Liability Company is one of the leading manufacturers of cable and wiring products and is specialized in the manufacture of optical cables for an...

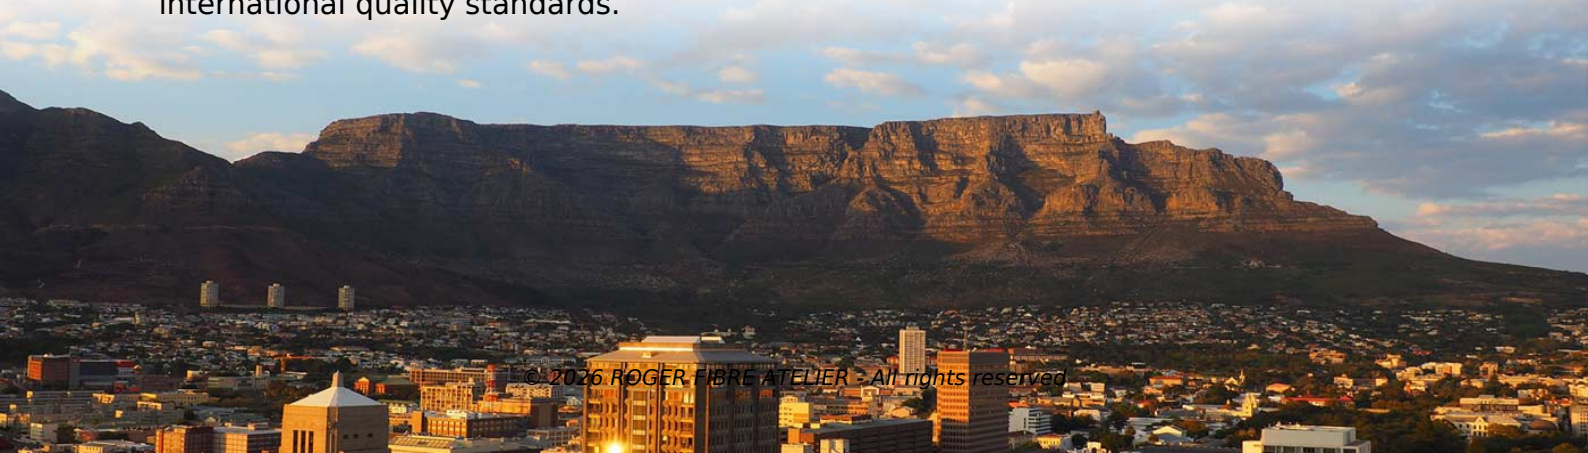

Key Takeaways

Key Belarusian manufacturers of domestically produced optical cables include SOYUZ-CABLE (INTEGRA CABLE), Minsk Cable Plant Minskkabel, BelOMO, and Peleng. SOYUZ-CABLE (INTEGRA CABLE) SOYUZ-CABLE FLLC produces fiber-optic communication cables under the INTEGRA CABLE brand. The company has an annual production capacity of 42,000 km of optical cable, with advanced fiber processing capabilities of 1,000,000 km per year.

Their production uses high-quality international equipment and includes a dedicated laboratory for mechanical and climatic testing, ensuring reliability for smart building networks.

INTEGRA CABL

E products are exported to 14 countries, demonstrating both domestic and international quality standards.

Minsk Cable Plant Minskkabel

Founded in 2000, Minsk Cable Plant Minskkabel JLLC specializes in optical cables for interconnected communication networks, including passive optical networks (PON) suitable for smart buildings. Located in the Minsk Free Economic Zone, the plant benefits from modernized production facilities and a quality management system certified to ISO 9001: 2015. The company has a testing laboratory for type and periodic testing, and its main clients include major Belarusian enterprises such as Beltelecom and Minskmetrostroy, indicating strong domestic deployment experience.

BelOMO Holding BelOMO Holding is a multiproduct organization with expertise in optics and optoelectronic devices. While primarily known for laser and optoelectronic systems, BelOMO's technological capabilities include optics manufacturing, machining, and assembly, which can support the production of optical components for smart building applications. Their products are exported to over 30 countries, reflecting high technological standards.

Peleng JSC

Peleng JS

C is a leading Belarusian enterprise in the optoelectronic industry, with over 50 years of experience in designing and manufacturing optical and optoelectronic systems. The company has modern production facilities and a strong R&D focus, historically contributing to spacecraft instrumentation and meteorological systems. Peleng's expertise in optical systems can be leveraged for advanced smart building applications requiring high-precision optical components.

Summary

For smart building projects in Belarus, SOYUZ-CABLE (INTEGRA CABLE) and Minsk Cable Plant Minskkabel are the primary manufacturers of fiber-optic cables suitable for networking and PON infrastructure. BelOMO and Peleng provide complementary expertise in optical and optoelectronic components, which can support specialized smart building solutions. These companies combine domestic production capabilities with international quality standards, making them reliable suppliers for both local and export-oriented projects.
