

Direct supply from Chilean stainless steel cable tray manufacturer

Overview

Manufacturer of ready-to-use cables (including small series), custom assembly or according to various standards of drive manufacturers. Short delivery times and 100% inspection.

Key Takeaways

Leading stainless steel cable tray suppliers in Chile include Brilltech Engineers, SILTEC, and Jeetmull Jaichandlall (P) Ltd., offering corrosion-resistant, durable, and versatile cable management solutions.

Key Manufacturers and Suppliers

Brilltech Engineers Pvt. Ltd. is a prominent supplier in Chile, providing stainless steel cable trays designed for industrial, commercial, and outdoor applications. Their trays are made from high-quality materials such as stainless steel, galvanized steel, and fiberglass, ensuring durability, corrosion resistance, and compliance with industry standards.

They offer ladder, perforated, and trough types, with customizable solutions for specific project requirements, along with installation support and system design assistance.

SILTE

C specializes in stainless steel cable trays made from AISI 304 and AISI 316, which provide excellent corrosion resistance and mechanical strength. Their products are suitable for harsh environments and are available in standard lengths of 3000 mm, adaptable for industrial facilities, commercial buildings, and outdoor installations. Jeetmull Jaichandlall (P) Ltd. is another trusted manufacturer in Chile, offering wire mesh and stainless steel cable trays.

They provide flexible material options, including stainless steel 304/316 and aluminum, allowing selection based on environmental conditions and corrosion resistance needs. Their trays are designed for robust cable support and efficient cable management.

Features and Benefits

Corrosion Resistance: Stainless steel construction ensures long-term durability in harsh environments. **Versatility:** Suitable for industrial, commercial, and outdoor applications, with multiple tray types available. **Customizable Solutions:** Companies provide tailored designs to meet specific project requirements.

Ease of Installation and Maintenance: Trays are engineered for straightforward assembly and long-term reliability. **Enhanced Safety and Cable Organization:** Proper cable support reduces hazards and improves system efficiency. **Considerations for Selecting a Supplier** When choosing a Chilean stainless steel cable tray supplier, consider: **Material Grade:** AISI 304 for general use, AISI 316 for highly corrosive environments.

Tray Type: Ladder, perforated, trough, or wire mesh depending on cable load and airflow requirements. **Compliance and Standards:** Ensure the supplier meets international quality and safety standards. **Support Services:** Availability of design consultation, installation guidance, and after-sales support.

These companies provide reliable solutions for cable management, ensuring safety, durability, and efficiency in diverse applications across Chile.
