

Indonesian Metal Fireproof Cable Tray Manufacturer

More durable and robust

The outer layer is made of environmentally friendly PVC, which is soft and elastic. It can be stretched without damage, so you can use it with confidence.

Overview

Steel Manufacture Company TWCC MANAJEMEN SUPLAI (Indonesia) is a manufacturing company focused on sheet metal processing and fire protection system accesso.

Key Takeaways

Leading Indonesian manufacturers of fireproof cable trays include PT. East Electric Power, PT. Surya Cakra Mandiri, PT Sumber Surya Mandiri, and PT.

Teknik Budi Perkasa, offering high-quality, fire-resistant solutions for industrial and commercial applications. Key Manufacturers and OfferingsPT. East Electric Power specializes in heavy-duty steel cable trays with fireproof coatings, designed to maintain structural integrity under extreme heat.

Their trays feature intumescent or fire-retardant layers, interlocking reinforced joints, and high-strength mounting hardware, making them ideal for emergency systems, high-risk infrastructure, and public transportation corridors. PT. Surya Cakra Mandiri (SCM B-Tray) produces a wide range of cable trays, ladders, and FRP/GRP systems.

Their products meet international standards including ISO 9001, ISO 14001, and OHSAS 18001.

SC

M offers custom fabrication in mild steel, stainless steel, aluminum, and fiber-reinforced plastics, suitable for power plants, oil & gas, data centers, and industrial facilities.

P

T Sumber Surya Mandiri focuses on steel cable trays and ladders for industrial and commercial projects. Their systems provide robust support, excellent ventilation, and easy access for large cable bundles. They are known for durable, custom solutions that comply with Indonesian and international safety standards.

PT. Teknik Budi Perkasa manufactures FRP (Fiberglass Reinforced Polymer) cable trays, which are lightweight, corrosion-resistant, flame-retardant, and non-conductive.

FR

P trays are particularly suitable for high-humidity, chemical-exposed, or coastal environments, offering both fire safety and structural strength.

Applications

Emergency Systems: Fire alarms, emergency lighting, and smoke extraction systems.

High-

Risk Infrastructure: Skyscrapers, tunnels, industrial plants, and transportation hubs.

Industrial and Commercial Projects: Power generation, oil & gas, data centers, and large-scale construction projects.

Considerations

When selecting a manufacturer, consider: Material Type: Steel vs FRP depending on environmental conditions. Fire Rating: Compliance with international fire safety standards. Customization: Ability to fabricate trays to project-specific dimensions and load requirements.

Certifications: ISO 9001, ISO 14001, OHSAS 18001 for quality and safety assurance. These manufacturers provide reliable, fire-resistant cable management solutions suitable for Indonesia's tropical climate and industrial requirements, ensuring both safety and long-term performance.
