Price of Double-Sealed Distribution Box

Overview

Waterproof Distribution Protection Box, ABS Plastic With a waterproof design and double sealing mechanism, this distribution box Distribution Box Price, 20.

Key Takeaways

The price of a double-sealed distribution box typically ranges from $200 to over $2,000 depending on size, material, and features.

Price Range and Factors

The cost of a double-sealed distribution box varies widely based on several factors: Material and Construction: Basic plastic enclosures are on the lower end ($200–$400), while powder-coated steel or high-grade stainless steel units can exceed $1,500–$2,000. Size and Capacity: Larger boxes with higher amperage ratings or more circuit slots cost more. Standard residential units are cheaper, whereas commercial or industrial units with multiple circuits and three-phase systems are more expensive.

Protection Ratings: IP66 or IK10-rated boxes designed for outdoor or harsh environments carry premium pricing due to weather and impact resistance. Internal Components: Empty boxes are less expensive, but adding high-quality circuit breakers, surge protectors, busbars, or smart monitoring modules increases the price significantly. Advanced Features: Modern distribution boxes may include Wi-Fi/Ethernet connectivity, remote monitoring, or modular designs for solar panels and electric vehicle circuits, which further raise costs.

Typical ApplicationsDouble-sealed distribution boxes are used in residential, commercial, and industrial settings to protect electrical circuits from moisture, dust, and tampering. Outdoor installations or areas with high humidity require fully sealed enclosures, which justifies the higher price.

Summary

For budgeting purposes, expect a basic double-sealed distribution box to start around $200–$400, while industrial-grade or feature-rich units can cost $1,500–$2,000 or more. The final price depends on size, material, protection rating, and included components, so it is advisable to specify your requirements before purchasing.
