

What is the dustproof rating of a network server rack

Overview

Here's the direct answer: For most users, an IP54-IP55 wall- or floor-mounted cabinet with replaceable panel filters, rear cable grommets, and passive ventilation (not sealed fans) delivers the best real-world protection without overheating risk. The Tripp Lite NEMA 12 SR42UBEIS 42U enclosure protects sensitive electronic equipment from harsh conditions that would overwhelm a typical rack enclosure, including falling dirt, dust, drips and splashes. With an "Ingress Protection" rating of. Introducing the Great Lakes 45U NEMA12 Free. Rack enclosures are rated based on their suitability for certain applications and the degree to which they protect equipment. Thanks to its IP55 rating, integrated fans and solid steel construction, this server cabinet provides maximum protection as well as ventilation, even in demanding industrial.
